Smith and Lyford, wire furnished and building fence on Durrell mountain	10.00
	<hr/>
	\$360.00

Just a Few Words in Regard to our Deficit :

Two years ago at the annual town meeting, a vote was passed instructing the incoming board of Selectmen to expend some \$300.00 in special repairs of the highway on the Durrell Mountain.

The money was raised but owing to delays the work was not attended to in 1901.

In the Winter and Spring of 1901-1902, heavy rain left the road in an impassable condition, consequently involving a much larger expense in the repairs.

Last Spring the Board of Selectmen took the matter in hand in the month of April. Specifications were made and bids advertised for with the result that Smith & Lyford of Belmont being the lowest bidder by some \$50.00 were early at work on

the road. The Selectmen were unanimous in their praise of the work done by the contractors. They built a culvert some 50 feet long by $2\frac{1}{2}$ feet wide and 3 feet deep. They also moved the road bed over upon the land of Charles W. Durrell for a part of the way, leaving it higher. This gave the water a chance to run off from each side of the road, whereas before, the road seemed to be the only channel for the water to leave the whole side of the mountain. A good four strand barbed wire fence was put up between the land of Mr. Durrell and the road, the contractors finding material and labor.

Those people who live in town and have occasion to use the road speak in exceedingly high terms of the improvements.

In the Fall of 1901, the board of Selectmen received a petition signed by over one hundred of the taxpayers of Gilmanton, asking that a road be laid out from the residence of George E. Straw to the Barnstead road. A hearing was called and the territory through which the road was to pass, looked over. It seemed to us that the town already had more roads than it could properly care for, but after looking the ground over and considering the needs of those people living in that section of the town we decided to lay out the road.

The reader will also bear in mind that a petition carrying over one hundred names and signed largely by heavy taxpayers, was not to be set aside and ignored by a board of selectmen. The necessary preliminaries could not be gotten through with in season to construct the road in 1901. Specifications were made and bids called for in the early spring of 1902. George C. Parsons, being the lowest bidder, was awarded the contract for building the road. Mr. Parsons, although not professing to be a veteran road builder seems to understand what a good road needs to be. The cost of the Durrell mountain road repairs and land damages, fencing, surveying, and the building of the new road was something over \$1,800.

Taking into consideration the fact that there was no money raised for these improvements nor anything for reduction of the town debt, at the last annual meeting, it will not be surprising that there is a deficit this year. At the annual meeting in 1901 \$1000 was raised for town debt and \$300 for re-

pairs of Durrell mountain road. There was no money laid out in 1901 on the Durrell mountain road so the board really had \$1300 to reduce town debt. The debt was reduced in 1901 something over \$1500.

The past year with \$1800 laid out on the new road and on Durrell mountain we have been able to keep the deficit down to some \$1500.

Considering the above circumstances the board is congratulating itself that the balance against us is no larger.

Hoping that you will understand our explanation and pardon us for our self-congratulation we are your humble servants.

GEO. E. PAGE,	}	Selectmen of Gilmanton.
STEPHEN L. WEEKS,		
NEHEMIAH DURGIN,		

REPORT OF SCHOOL BOARD.

It again becomes the duty of the school board to submit to the citizens of Gilmanton a brief report of the year's school work. Eleven schools have been maintained throughout the year.

Our schools as a whole have never been in a more prosperous condition than at the present time. It is gratifying to note the increasing interest on the part of our scholars since the school year has been changed from twenty to thirty weeks. By this change we are enabled to take our proper position in relation to the schools of surrounding towns. In point of definiteness of aim, earnest effort, inspiration to noble endeavor, fertility of resource and skilful instruction our schools should stand second to none in the state.

The best results for time and money expended for school purposes can never be obtained until parents and teachers are made to realize that their interests are identical, and that they must ably second each other in the noble work of rearing and educating the young.

Public opinion is likely to be unduly influenced by *critics*, who magnify slight defects (real or imaginary) in the public school and overlook its abounding merits. The attention of the people cannot, for the welfare of our schools, be too often nor too forcibly directed to these facts.

It has seemed necessary this year as in the past, to purchase some new books for the use of our pupils. In so doing we have endeavored to select books by authors of recognized ability and such as have received the endorsement and commendation of some of our best educators.

We have also added some new maps in an attempt to keep pace with the changes constantly taking place in the geography of the world. We earnestly hope that very soon we may be able to place a globe in every school, and thus enable our pupils to have a better understanding of what geography is.

During the spring term a school was maintained in the Griffin district. At the beginning of the fall term it seemed best to close this school and open one in the Loon Pond district. This change necessitated a few repairs, as this school house had been closed for a number of years. It was also thought best to unite the Iron Works and Hall's Hill districts, thereby lessening the number of schools. We hope soon to see a way to unite others, but at the present time the scholars are so scattered that the expense of conveyance would exceed that of supporting a small school.

A small school labors always under this disadvantage—it lacks the stimulating power arising from competition. Under existing circumstances some of our small schools deserve special commendation for the amount of work accomplished during the past year.

The school house in the Corner district has been repaired at an expense of \$237.89. It is now both comfortable and pleasant. As a matter of economy this school house as well as several others in town should be painted the coming spring.

Before closing we wish to acknowledge our indebtedness and return our thanks for the almost universal kindness and courtesy extended to us during the discharge of our duties.

LAURA E. VARNEY,	} School Board	
C. FRANK PAGE,		of
FRANK N. MERRILL,		Gilmanton.
